II. Administrative information

The term "coverage" means the benefits provided by Oxford, pursuant to the Group Certificate of Coverage. To be eligible for small group coverage, you must be located in a county where we offer this Oxford product and have at least 1 but not more than 100 full-time equivalent employees over the prior calendar year.

1. Effective date: We request that this coverage be effective _____.
2. Anniversary date: The anniversary date is the first day of the calendar month that is closest to the effective date.
3. Open enrollment period: The open enrollment period is the month prior to your anniversary date. The open enrollment effective date is the first of the month following the period.
4. Enter the Prior Calendar Year Full-time Equivalent Total Number of Employees _____
   (This information will be used to determine whether you are a small group.)
   For purposes of determining your number of full-time equivalent employee count over the prior calendar year, please use the following calculation:
   (1) For each month during the calendar year, count all full-time employees. (A full-time employee is one who works an average of 30 or more hours per week.)
   (2) For each month during the calendar year, count all HOURS worked by part-time employees and divide by 120.
   (3) Add the number resulting from (2) to the number resulting from (1) for each month during calendar year.
   a) Only if the total number is equal to or exceeds 101 employees, then you must verify that "seasonal workers" who worked less than 120 days were not included and remove them from the calculation.
   b) A "seasonal worker" is one who performs labor or services on a seasonal basis as defined by the Federal Secretary of Labor, including retail workers employed only during a holiday season.
   (4) Divide the total number of (3) by 12. If the business was new and did not operate for all of the previous calendar year, divide by the number of months of data that were used.
5. Enter the Prior Calendar Year Average Total Number of Employees _____
   (This question is included for Department of Health and Human Services reporting purposes only and does not determine group size.)
   Under Health Care Reform law, the average total number of employees means the average number of employees employed by the company during the preceding calendar year. An employee is any person whose work is controlled and directed by the employer (also known as common law employees). Employees may work full-time, part-time and on a seasonal basis. Individuals do not have to qualify for medical coverage to be considered employees. Although employees generally will receive a W-2, include in your employee count common law employees who may not always get W-2s.
   To calculate the annual average, add all the monthly employee totals together then divide by the number of months you were in business last year (usually 12 months). When calculating the average, consider all months of the previous calendar year regardless of whether you had coverage with us, had coverage with a previous carrier or were in business but did not offer coverage. Use the number of employees at the end of the month as the "monthly value" to calculate the year average. If you are a newly formed business, calculate your prior year average using only those months that you were in business. Use whole numbers only (no decimals, fractions or ranges).
6. How many eligible employees does this group have? _____
   Eligible employees: Active permanent employees of the employer and of all subsidiaries or affiliates of a corporate employer who work **20 or more** hours per week and are eligible for health benefits through the employer's group health plan. Eligible employees do not include:
   – any person who does not meet the common law employee definition under Department of Labor and Internal Revenue Code rules or
   – any former employee who is covered through retiree benefits, COBRA or state continuation.
   An employer may elect to offer coverage to a class of employees based on conditions pertaining to employment: geographic situs of employment, earnings, method of compensation, hours and occupational duties. Employees who work less than 20 hours per week are not eligible employees and may not enroll in any Oxford products. If coverage is limited to specific class(es) of employees, the classes must be specified in response to question 20 below.
   If the employer does not offer group health coverage to all eligible employees, eligible employees should include (1) the number of eligible employees who work in the state of New York and (2) if the employer offers Oxford coverage to out-of-state employees, the number of out-of-state eligible employees.
7. Total number of employees being offered coverage through this product: _____
   Of the eligible employees who work 20 or more hours per week, please list all employees who will be offered coverage under this policy. If coverage is limited to specific class(es) of employees, the classes must be specified in response to question 20 below.
   Groups seeking to purchase insurance, also must meet the minimum participation requirements for coverage, except during the annual open enrollment period from November 15th - December 15th. Please see our underwriting guidelines for details on our minimum participation requirements.
8. If the employer offers retiree coverage, how many eligible retired former employees does this group have? _____
   Integration with Medicare benefits: Health benefits covered by Medicare Part A and B are carved out for retired employees aged 65 or over and their dependents aged 65 or over, if the group offers retiree coverage.
9. Total number of employees and former employees enrolling: _____
   Enrolling means the total number of eligible employees, COBRA or state continuation enrollees, and retired employees (if applicable) accepting coverage with any Oxford product.
   a. of those former employees enrolling, how many are retired? _____
   b. of those former employees enrolling, how many are enrolling through COBRA or state continuation? _____

(2) No longer than 26 consecutive weeks for a medical leave. Coverage may be extended for a longer period of time, if required by local, state or federal rules.

This Application and the premium rates proposed by Oxford are subject to approval, in writing, by Oxford and may change due to differences in actual versus proposed enrollment, selection of benefits, changes in census data or underwriting criteria, or any other changes in underwriting as determined by Oxford. We reserve the right to modify rates in the event a plan design must be modified as a result of any change, modification or clarification in law. We also retain the right to correct typographical errors or discrepancies prior to the effective date of coverage, and take other actions (for example due to a misrepresentation of a material fact) as permitted by applicable state law.

I, the undersigned, on behalf of the above named company (the "Applicant") am applying for small group health coverage and understand that the information provided will be used to determine eligibility for coverage, premium rates and for other purposes. I confirm that all information gathered herein is accurately represented, complete, and that the Applicant is not aware of any information that was not disclosed.

The Applicant confirms that we employ no more than 100 full-time equivalent employees and at least 1 full-time equivalent employee.

The Applicant understands that this Application may be chosen for an audit to confirm the information provided. Audits may be conducted before or after enrollment. If documents reviewed or submitted during an audit show that the information provided on an application was false or that the group does not meet underwriting requirements, the group will not be enrolled (audit completed prior to enrollment) or will be terminated (audit completed post enrollment).

The Applicant understands that other audits may be conducted while the Group Policy and Group Enrollment Agreement is in effect and agrees that all documents or other information that may impact coverage or premiums will be available for inspection.

The Applicant hereby acknowledges and understands that this application does not constitute any obligation by Oxford to offer coverage and no insurance will be effective unless and until the application is formally accepted, in writing, by the Oxford entity underwriting the coverage. No contract of insurance is to be implied in any way on the basis of completion and/or submission of this Application.

The Applicant agrees to offer coverage to all eligible employees and that only those employees or former employees and their spouses or dependants who are eligible for coverage will be enrolled. By signing below, you are signing the group application on behalf of the group applying for coverage and stating that (1) I am the Applicant or the agent for the Applicant and am authorized to sign this Group Application and (2) the Applicant will be legally bound by the terms and conditions of the application, this authorization and the plan documents.

Please note, that to the extent permitted by applicable State law, an employee's or employer's failure to pay any past-due premium amounts owed for coverage to Oxford or any of its affiliates to whom you are applying for coverage, or any other health insurance company within this health insurer's control group to whom you owe premium, within the past 12 months preceding the requested effective date of any new coverage, will be assigned to the employee's or employer's initial premium payment to effectuate new coverage.

Any person who knowingly and with intent to defraud any insurance company or other person files an application for insurance or statement of claim containing any materially false information concerning any fact material thereto, commits a fraudulent insurance act, which is a crime and shall also be subject to a civil penalty not to exceed $5,000 dollars and the stated value of the claim for each violation.
